## **Project GLAD Training Professional Development**

Project GLAD® was developed by Marcia Brechtel and Linnea Haley then field tested for nine years by the United States Department of Education. It is a professional development model in the area of academic language acquisition and literacy. Brechtel and Haley designed the strategies and model to specifically target and promote language skills, academic achievement, and cross-cultural skills with groundbreaking efficiency. At the conclusion of the Project GLAD® study in the 1990s, the U.S. Department of Education placed a mission of national dissemination upon us. As the only organization endorsed by Marcia Brechtel, it then became our goal to help the nation 'BE GLAD'. We have continued to research and field-test our practice over the past two decades with increasing success. Our organization has exclusively continued to earn the highest measures of student performance.
